- B. Multiply the Total Dollar Amount of Sales (A) times .40 to get your Total Profit (B). This is based on your profit percentage of 40% on all items sold.**

- D. Enter \$25 for your Shipping Charge (D) if the Total Dollar Amount of Sales is less than \$800. Enter zero for your Shipping Charge (D) if the Total Dollar Amount of Sales is \$800 or more. There is also no Shipping Charge for additional orders during the same season.**

### **DIRECTIONS FOR SENDING IN YOUR ORDER**

- 1. Please make certain all orders are legible and all shirts have sizes listed. We try incredibly hard to make your orders perfect, but poor handwriting and missing sizes can make it very difficult and possibly lead to mistakes on your order.**
- 2. Please check that all of your sellers who sold 12 or more items have selected one free item for every 12 items sold at the bottom of their order forms and please make sure sizes are included for all shirts.**
- 3. Mail in your original white Order Forms and yellow Master Order Form along with an organization check, money order, cashier's check or official school purchase order. Please avoid sending personal checks. Otherwise, we must wait 2 weeks for them to clear before we can ship your order.**
- 4. If your seller's order is more than one page, please staple all the pages of that seller's order together.**
- 5. If you want us to pack the order by teacher, grade, or class, make sure each order form has the required information on it and put each group's order together with a paper clip.**
- 6. Online items sold count towards the prizes your students earn. Please check your Online Sales Report to see if any of your students have sold 12 or more items combining their paper orders and online sales. Be sure to have your sellers indicate their free items in the space provided at the bottom of the order form.**
- 7. After receiving your order, we will pack everything per person and deliver your items UPS within 2 weeks or less. The prizes will come packaged with each person's order.**
